h. 32 x 24 feet, two-story, of long 12' x 7" logs, this church sits in a glenn near the head of Stony Creek. It was built by the 19 families who first worshipped in it. Logs and lumber came from the area. The logs were hewn, then the corners were notched and fitted as the building was raised. The cracks were partly filled with large chips, then daubed with limed clay inside and out. High cherry pulpit. Seats are slat-hacked benches.

REFERENCE (use attachment sheet if necessary)

1. Architect/Builder/Engineer _____
 2. Style/Period Log
 3. Date 1835

This is one of the three old log churches in Pocahontas Co. Often called the "Old Log Church" it was named Hamlin Chapel in honor of the son of the man who gave the land for the church. All the work of hewing logs, shaving shingles, notching and fitting corners was done by the hands of people of record. From 1884 to 1907 Presbyterians met there each month. The chapel is now used for special services such as Easter, Community music programs, homecomings, etc.

HISTORIC PRESERVATION UNIT
DEPARTMENT OF CULTURE & HISTORY
THE CULTURAL CENTER
CHARLESTON, WEST VIRGINIA 25305

- Name(s) Historic/Common: W. M. - L. D. Sharp Buildings Complex
1. W. M. Sharp Log House
 2. L. D. Sharp Home
 3. Sharp's Country Store
 4. Old Cellar House

1. The William Sharp (1815-1888) Log Home is located behind Sharp's Country Store, Slaty Fork, W. Va. Fireplace, rock chimney, stairs to loft where boys slept, and old original cook kettles for fireplace are still there. Robert E. Lee ate supper here one night when he was visiting his soldiers at Linwood. Needs some restoration.
2. The L. D. Sharp (1872-1963) Home, 3-story, built about 1916, is the present residence of his son, Si Sharp. It has eleven bedrooms, dining room, kitchen with six doors, parlor, living room, enclosed sleeping porch, pantry, one and a half baths, basement, outside porch extending over half way around house, two first to second floor stairways, living room and kitchen completely sealed with narrow tongue and grooved boards. All other first floor rooms and halls are wainscoted with the same wood. All lumber in house was cut on the farm and kiln-dried, planed, shaped, etc. on the premises. Spring fed water pipe to the dairy or milk house helped keep milk cool. A Delco 32 volt plant supplied electricity for lights in the house.
3. The Sharp's Country Store, built about 1928 when the new road was built, has had the U.S. Post Office in it for several years. The first four gasoline pumps were the tall hand pumped pumps that had 10 gallon glass cylinders at the top. A 32 volt Delco electric plant was used for several years to supply lights until the West Penn came through.
4. The "Old Cellar House" with upstairs granary was built about 1850-1860 by William Sharp. The cellar part is made of cut stone. The upper two floors are wood. A carpenter's bench and wood vice is on the first floor where Captain Mundy did wood work when he visited Hugh Sharp.

10 SIGNIFICANCE (use attachment sheet if necessary)

a. Architect/Builder/Engineer
J. G. Tilton, builder
b. Style/Period _____
c. Date(s) 1909

h. A two story building 55' x 125', walls and subfloor of poured concrete reinforced w/rail steel. Gabled roof with corner to each rear side front facade, 5-bay at street level, single flight, enclosed stairway at right and left of lobby to wide, slope balcony on side and rear. Large stage and dressing rooms were at front. Ceiling and under balcony is covered w/ heavy ornamented stamped metal. Walls very strong. Building now for sale. Solid walnut balustrade with turned balusters around balcony.

Built by J. G. Tilton, in 1909 in the "rail-road - Sawmill" days for a multiplicity of uses in a booming rural town. Professional and amateur theatre, lyceum, minstrel shows, music recitals, basketball (largest court in State) roller skating rink, w/band, movies, church services. In 1918 used for high school classes. 1925 garage. Some people seeking means to buy building for community use.

a Architect/Builder/Engineer
M. Arbogast - builder
and owner.
 b Style/Period
Queen Anne
 c Date(s)
Approx. 1905-
1910

The owner/builder was in timber business in the area during boom of timber industry in Pocahontas County.

The weather vane on top of the turret resembles a world globe being supported aloft.

The cut stone wall across front and partially extending back on two sides of the lawn was original foundation of the first Methodist Church in Marlinton. Added by second owner.

11 BIBLIOGRAPHY

- (1) Nancy McNeel Currence, niece of owner/builder.
- (2) Mrs. Frank Sydnor, wife of second owner.
- (3) Mary Richardson Davis, third owner.
- (4) Ruth Morgan, third owner.

HISTORIC PRESERVATION UNIT
DEPARTMENT OF CULTURE & HISTORY
THE CULTURAL CENTER
CHARLESTON, WEST VIRGINIA 25305

Name(s) Historic/Common:

M. Arbogast - Sydnor - Morgan House

The four original chimneys provided for three fireplaces or a flue opening in each room. One fireplace is of black marble with matching mantel, two fireplaces are of marble design small tiles with matching hearths - all used with grates.

A rounded wall section between reception hall and living room is a unique feature. Two sets of large panelled double doors between three rooms are pocket doors. Door facings are wide, fluted design, with transoms above all first floor doors.

Front stairway was replaced by second owner with solid oak pannelled side and stairway of 19 steps - 6" risers. Over this stairway from wall to wall is a rectangular decorative wood fretwork. Parquet flooring was installed in three rooms.

The third owner added bathrooms in two back dormer areas on second floor in providing two rental apartments. 1940

Front steps to porch altered in 1966.

Slate roof replaced with fiberglass shingles in color as close to slate grey as possible. 1974

SIGNIFICANCE (use attachment sheet if necessary)

1. Architect/Builder/Engineer

2. Style/Period Barn

3. Date(s) Ca. 1780

They used black walnut and white oak logs to construct it. The plate logs, on which the rafters set, were hewed out of black walnut logs. They were made 18" square and 30' long and are as sound as when they were placed there.

Built by John McNeel who settled in the area in the late 1700's. He was in the militia in Capt. John Stuart's Co. of Greenbrier Volunteers, Botetout County Regiment. He took part in the battle of Point Pleasant on Oct. 10, 1774. McNeel family is very prominent in the county and the farm is still in their name. John McNeel died in 1825.
